Stage 4 International Modern Languages

Registration

Ensure that you module registration is in compliance with the requirements of your programmer

By the end of stage 4 you must have completed 180 UCD credits (this does not include credits from your year abroad).

These modules must include:

Your Core modules SLL 20030 (normally taken at stage 2) and SLL 30050 (normally taken at stage 4, you should be registered to this module in the spring trimester this year)

SLL 30050 Module Coordinator: Sabine Krobb (strumper.krobb@ucd.ie)

Spring Trimester Weekly Contact hours:

Tue, 10-11

Thur, 10-11

At stage 4 you must also complete the following

---

2 Core language modules in each of your major languages

A minimum of 2 level 2 option modules in one language

A minimum of 3 level 2 option modules in the other language

(Please note that this will reverse the balance at stage 2)

If you are carrying missing credits from stage 2 because you either did not register for 60 credits at stage 2 or did not pass all your modules, you must make sure that you register for the required number of modules, including resits and repeats**.**

2 elective modules

If you want to continue with a third language, most subjects require you to complete 15 credits, including at least the level 3a language module to have your 3rd language recognised as structured elective, so you must use your elective credits for this. Otherwise, your elective modules can either be modules from your major subjects or modules from any other subject or programme that are available as electives. Elective modules can be at any level.

You may already have taken some modules in fulfilment of your stage 4 requirements last year, so you may not have to take 60 credits this year. It is all the more important to check that you will have completed the overall required modules by the end of this academic year. If in doubt: ask!!
